

EGNOS SERVICE NOTICE

Number: 020

Version: 1.0

To: All EGNOS Users
Date: 20/12/2018
Subject: EGNOS GEO PRN 120 Decommissioning

The EGNOS space segment is currently composed of 4 geostationary (GEO) satellites. This Service Notice informs all EGNOS users that, as of January 2019, the INMARSAT 3F2 (PRN 120) satellite will cease to broadcast EGNOS SIS and will be totally removed from the EGNOS system. The EGNOS Space Segment from 1st of January 2019 onwards will be as described in Figure 1:

GEO Name	PRN Number	Orbital Slot
ASTRA 5-B	PRN 123	31.5 E
ASTRA SES-5	PRN 136	5.0 E
INMARSAT 4F2 EMEA	PRN 126	64.0 E

Figure 1. EGNOS Space Segment from January 2019 onwards

It is important to remark that these changes in the EGNOS GEO space segment are performed in a seamless manner without any interruption of the service from an EGNOS user point of view and without compromising at any moment the EGNOS performances. In particular the EGNOS SoL service integrity remained safe at all times and locations within the EGNOS coverage area.

More detailed information on EGNOS system status and performances can be found at the EGNOS User Support website <https://egnos-user-support.essp-sas.eu>.

Users can subscribe to notifications about planned GEO outages and configuration changes and to real-time notifications of unplanned GEO SIS outages and recoveries in the EGNOS User Support website (<https://egnos-user-support.essp-sas.eu>).
